BITS OF BY-PLAY

bition to be the first Governor of a his distinguished ability. He has edges attended to by the cashier. the Cruce family as well as the city cil eight terms. and some go down.

Lee Cruce, as every one knows, is a Crittenden county boy and in the year 1888 or 1889 was a member of the firm of Cruce Bros., and was selling goods at Crayneville and trying their best to keep the sheriff from closing the store doors and tacking a sign thereon. Lee's agility in handing a woman down from a horse and counting out a dozen eggs from her tin bucket was remarkable. He could measure off a couple of yards of bleached domestic, wrap it up and make the change with lightning like rapidity. He always said if he could make enough money he would go West, therefore he practiced close economy and attended strictly to business. By a master stroke of good fortune Cruce Bros., of Crayneville, sold out. Lee gathered his hard earnings together and counted it. He had \$38.49. Without delay he boarded a train and went West. His phenomenal success at Ardmore is known to every reader of this paper. He is president of the Ardmore National Bank, of which Perry D. Maxwell is cashier, and is worth over \$100,000. His real worth as a man is attested by the close race he run for the nomination for Governor against the most popular man in the Territory. The over-confidence of his friends probably had a great deal to do with his defeat. The vote in Oklahoma automobile as a means of thinning proper was very light, and in fact out our millionaires, there is the it was very light in the Chickasaw nation and Carter county and even Ardmore. The people of Ardmore just knew he would be elected.

It appears at this writing that there is no chance for him unless the official count by the State Central Committee should discover some error, which of course is very un-
